

Dear Year One Parents and Children,

We hope that you have had a good week and have enjoyed completing some of the home learning activities that we gave you.

We are now at the end of term and will now have two weeks for our Easter holidays.

The adults in Year One realise that you have all been working really hard and feel that you and your families would like to have a break from your school work over Easter time so we are just including a few simple ideas for those families who would like them.

RE - Watch an online Easter Liturgy if you are able to. Maybe you could make an Easter poster with the words 'He has risen!' to put up in the window of your home.

English - Continue with Reading Eggs and listen to stories online.

Maths - You should now be able to access Maths Seeds through your Reading Egg login. Continue to play board games and card games with your families.

Physical - Try to do some exercise everyday - this will help to keep your body and mind healthy. Joe Wicks will continue with his PE lessons every morning on Youtube at 9am. Try to go outside for a walk when you can and keep looking for those signs of spring that we have been learning about.

Science - You could make an Easter cake or some biscuits with your family and notice how the mixture changes when it is cooked.

We hope that you have a lovely Easter break.

Love from all the adults in Year One
