

FAQs re Google Classroom

How do I log into the new class?

Having created your Goggle account already, it should be straight forward to log in again to Google classroom and click on the + at the top right hand side then join another class

Can I upload pictures with other children in it?

If you are uploading videos or photos that you must have permission of all the children in the pictures.

What is my child's class code?

1A parent code oxq7724

1T parent code ldteoui

2D parent code o6qufut

2H parent code zwxaly6

3C parent code wklgsaw

3T parent code dpgal2u

4B parent code fuxbzc7

4M parent code ode2h3y

5J parent code hmkbydb

5B parent code g3ukgdu

6M parent code osi3tdq

6N parent code asbcloz

How do I submit work to my child's teacher?

- Ask your child to save their work to their laptop/PC/iPad - make sure they give it a recognisable name so that they can find it easily. If they have written some work, or made something, they can take a photo and save the photo in the same way.
- Click on the assignment your child has completed.
- On the right hand side of the screen you will see a box with the words **Your work + Add and Create**, when you click on this you can add a saved file or photograph.
- Click upload.
- You can then click **Mark as done**.

Can I send a private message to the teacher?

Yes. If you want to send a private message to the teacher, you can do this via the **Private Comments** box. Other messages are shared with the class.

I messaged the teacher at the weekend but haven't had a reply?

I have asked teachers to reply to comments and work during school hours only. Just a reminder that if a teacher is on the rota to be in school that day, they will not have been available online as they will be working with the children in school.

It's my name on the Google account, is that all right?

We need to be able to easily identify each child, so if the parent's surname is the same as the child, this is fine.

If you do need to change the name, please follow these instructions:

- Once you log into your Google account (You must set up the account first by creating a G mail address)
- Click on the photo icon at the top right-hand side of the page
- Then click on 'Manage your Google account'
- After that, click on 'Personal info' (Left hand side)
- Then a tab will open where you can change the name of the account to the child's name.
