

Science

I am a scientist investigating and discovering the world around me

Scientific process	Progression statements for Year 3	Pupil	Teacher
1) Planning Investigations	I can ask relevant questions when prompted.		
	I can set up simple and practical enquiries and fair tests.		
	I can set up comparative tests.		
2) Conducting experiments	I can set up observations, and organise simple equipment to do this.		
	I can begin to set up fair tests.		
	I can use standard units when taking measurements e.g. mm, cm, m, g, kg, ml, L.		
3) Recording evidence	I can record findings in different ways.		
	With some help, I can create a table of results.		
	With some help, I can use various ways of recording, grouping and displaying evidence.		
4) Reporting findings	With some help, I can think of conclusions from enquiries.		
	I can suggest how findings could be reported.		
5) Conclusions and predictions	I can gather and record data about similarities, differences and changes.		
	With some help, I can suggest conclusions that can be made from data I have looked at.		
	I can suggest possible improvements or further questions to investigate.
